**FOR IMMEDIATE RELEASE**

**Annual March for Mammogram 5K Marathon**

Fort Worth, Texas – The Trinity Park downtown Fort Worth will host the 4<sup>th</sup> Annual March for Mammogram Event presented by The *BarbaraCares* Foundation on Saturday, May 06, 2023.

This event welcomes residents all over North Texas to take part in a community gathering highlighting the importance of mammography screening. This one-day family friendly 5K marathon offers a space for individuals to join in solidarity and awareness to help save and support lives. We are excited to organize this community engagement event to further support our efforts to provide **FREE** mammograms starting Mother’s Day weekend (May 13, 2023) through Breast Cancer Awareness Month in October to residents at-risk, uninsured, and for those lacking the financial capacity to afford a life-saving mammogram. This event is made possible through local businesses and organizations. I’m writing to invite you to join us onsite at this year’s event.

Located at: Pavilion #1 (Shelter House) 2300 West Seventh Street, Fort Worth, TX. 76107 by the Fort Worth Police & Firefighters Memorial, the March for Mammogram event will kick off at 9AM and last until 12:00Noon. Featuring live performances, a dunking booth, games, guest speakers, on site vendors, and more, we look forward to serving the community, because a healthy community is a strong community! For more information, please visit [www.barbaracaresforyou.org/march](http://www.barbaracaresforyou.org/march)

Funding raised from this event will support mammograms and supportive services for those diagnosed with breast cancer.

*All donations are 100% tax deductible.*
