FOR IMMEDIATE RELEASE:

BarbaraCares Awarded Grant from Bradie James Foundation 56 Fund to Support Mammogram Screenings

Fort Worth, TX — BarbaraCares is honored to announce it has been awarded a grant from the **Bradie James Foundation 56**, designated to provide mammogram screenings this October in recognition of Breast Cancer Awareness Month. This generous support will help remove barriers to care and ensure that individuals in our community have access to life-saving health services.

Bradie James, former NFL linebacker and founder of **The Bradie James Foundation 56**, established the organization in memory of his late mother, who passed away from breast cancer. His foundation is dedicated to carrying forward her legacy by supporting initiatives that promote breast cancer awareness, early detection, and patient support. Since its founding, he has worked tirelessly to reduce disparities in healthcare and provide critical resources to women and families facing a diagnosis.

“Community partners like Bradie James and his foundation allow us to serve with greater impact,” said Xavier Sanders, Executive Director of BarbaraCares. “This grant is more than financial support; it is a lifeline that helps individuals who might otherwise go without the healthcare they need. We are deeply grateful for Bradie’s leadership, his heart for service, and his foundation’s commitment to advancing women’s health.”

BarbaraCares remains steadfast in its mission to provide education, screenings, and direct patient support for those navigating a breast cancer diagnosis across Texas. The generosity of partners and supporters makes it possible to reach individuals each year, ensuring no one fights breast cancer alone.
