FOR IMMEDIATE RELEASE:

BarbaraCares Foundation Receives Transformative Grant from the Lunde Family Charitable Foundation

Fort Worth, TX – 08/08/25 The BarbaraCares Foundation is honored to announce a generous grant from the Lunde Family Charitable Foundation, a contribution that will significantly expand the organization’s capacity to serve breast cancer patients and families across North Texas.

This funding will provide direct, life-changing support to individuals navigating the challenges of breast cancer, including free mammography screenings, patient navigation services, and utility assistance for those in active treatment. These essential services not only ease the financial and emotional burden of care but also increase access to early detection which improves outcomes and saves lives.

“The Lunde Family Charitable Foundation’s generosity is monumental,” said Xavier Sanders, Executive Director of BarbaraCares. “Their commitment will directly touch the lives of countless North Texans, ensuring that more patients receive timely screenings, critical guidance, and practical support when they need it most. As someone who lost my own mother to late-stage breast cancer, I know firsthand how vital these services are, and I am deeply moved by the Lunde family’s dedication to honoring their parents’ legacy through such impactful philanthropy.”

The Lunde Family Charitable Foundation has a long-standing tradition of giving, rooted in a mission to improve lives and strengthen communities. This latest act of philanthropy exemplifies their steadfast belief in actionable compassion and measurable change. Funding will allow BarbaraCares the ability both short term and long term to further its mission to ensure no one faces breast cancer alone; removing barriers to care, offering vital resources, and restoring hope to families across the region.
