Fight, Smile & Fight Some More!

Press Release

Release Date: March 04, 2022

This past week the CDC (Centers for Disease Control and Prevention) released updated guidance concerning recommendations for public gatherings and mask wearing.

The CDC now advises individuals to take prevention measures based on local community and county COVID-19 infection/hospitalization levels. According to their website, prevention steps are to be decided based on levels being low, medium, or high and are determined by looking at hospital beds, hospital admissions, and the total number of new COVID-19 cases in an area.

While we acknowledge the recent CDC updated policy regarding best practices for public gatherings and mask wearing, [BarbaraCares](#) remains committed to the health and safety of our personnel, volunteers, clients, and vendors. Due to the vulnerability of the population, we serve, for any BarbaraCares sponsored events, masks are required.

We thank you for your understanding. We will continue to monitor any new updates and local infection rates by county. I am hopeful that we are turning the corner and one step closer to putting the effects of this pandemic behind us. As always, your health matters to us and we will always strive to do everything we can to advocate in hopes to save lives.

Sincerely,

Xavier Sanders – Executive Director
